WELCOME MESSAGE FROM THE CHIEF DIRECTOR

Thank you for choosing to study at the Elsenburg Agricultural Training Institute. We look forward to welcoming you here. We trust that your years of study at the Institute will be a memorable experience. At Elsenburg we not only strive to offer you academic training of a high standard, but also a unique student life.

Elsenburg has a proud history of providing training of superior quality to its students. Although we cherish our history, we place a high premium on timeous adjustment to changing circumstances. It is for this reason that our educational programmes are evaluated and modules externally moderated.

The realisation of the above-mentioned ideal will only be possible if all of us (the Institute, students, parents, colleagues and other role players) join hands and work towards our common goal. We therefore have to develop a mutually satisfactory partnership. As parents, you can make a significant contribution by comprehensively discussing the aspects mentioned below with your son/daughter before he/she departs for Elsenburg. Ultimately, it is the degree of personal responsibility each student takes for his/her conduct which contributes to his/her physical and psychological well-being.

Mr Marius Paulse

Chief Director: Structured Agricultural Education and Training

3. ELSENBURG AGRICULTURAL TRAINING INSTITUTE

3.1. Introduction

Elsenburg's history dates back to 1698 when the land was allocated to Samuel Elsevier by Willem Adriaan van der Stel, governor of the Cape Colony at the time. The farm's successive owners, of whom Martin Melck is probably the best known, built it up to become one of the premier farms in the Cape. Martin Melck built the beautiful old manor house in 1761. The farm was sold to the government by the Myburgh family in 1898.

On 1 September 1898 the Agricultural College, the first of its kind in South Africa, opened its doors. Five students received their diplomas at the end of the first academic year, June 1899. During the first 14 years of its existence the average number of students was 44. During the First World War there was a drastic reduction in applications, with only eight students studying there in 1915.

In 1926 Elsenburg College of Agriculture and the University of Stellenbosch amalgamated and a two-year diploma course was offered at Elsenburg, with the primary aim of training prospective farmers. In 1927 this course was replaced with a one-year course, which was replaced by practical courses in 1931. In 1939 the two-year diploma course was reinstated. Elsenburg's 47-year relationship with the university was severed in 1973 and the Department of Agriculture took on the responsibility for agricultural training at Elsenburg.

An important milestone in 1976 was the establishment of the Diploma in Cellar Technology. Many of South Africa's winemakers today received their agricultural training at Elsenburg.

In 1994, with the transformation to a democratic government in South Africa, the Department of Agriculture: Western Cape was created and the Elsenburg and Kromme Rhee colleges of agriculture amalgamated. The amalgamation placed a great responsibility on the Department of Agriculture to continue and expand the training offered. A Centre for Further Education and Training was therefore created to address the need for short, practical courses.

The relationship with the University of Stellenbosch was also reinstated and since 2004 Elsenburg has been offering a B.Agric. programme in association with the University of Stellenbosch's Agriscience Faculty.

This development is in line with the government's new academic policy to give tertiary students more mobility between educational institutions. The duplication of programmes is also eliminated. The Elsenburg College of Agriculture was renamed the Elsenburg Agricultural Training Institute on 1 April 2004.

The library is situated on the first floor of the hostel building, just above the dining room. It is a special library, focusing on agriculture and its related fields. The library is open during normal working hours from 08:00 -16:30 and on Tuesdays to Thursdays until 20:30 (only during the college terms). The library has a facility for photocopying, printing and scanning of documents. Computers and study cubicles are available for student use.

3.11. Internet and e-mail

Upon enrolment and payment of the internet usage fee, students are given a user-ID and a password. You also need these credentials to log on to the internet. Furthermore, PC rooms are available which can be used for individual study or group projects.

4. PRACTICAL INFORMATION

4.1. Responsibility for personal progress

At Tertiary Education level far more study is expected of the student than was the case at Secondary/High School level. **This fact cannot be overemphasized.** Students are expected to take full responsibility for their studies. We will endeavour to create the most favourable study environment possible. Lecturers merely act as facilitators of the learning process and are not the only source of information.

The Management and lecturers at Elsenburg are very concerned about each student's satisfactory study progress. Students who experience difficulties with their studies are expected to report this to the lecturer concerned or the Faculty Manager for the necessary student support. Students are encouraged to make use of this service.

4.2. Academic Rules

Students should be fully conversant with the Academic Rules of the Institute as well as the requirements for readmission. The Academic Rules will be provided to all students at registration. All students are expected to comply with these rules at all times to ensure and maintain our high standards. It is also advised that parents familiarise themselves with these academic rules.

4.3. Physical Safety

Although the Elsenburg campus is regarded as a safe campus and every precaution is taken to ensure the physical safety of every student, new students are advised to familiarise themselves with the rules and regulations in respect of safety. Students must be vigilant at all times and will be informed of measures they have to put in place to help ensure the safety of themselves and their property.

4.4. Insurance of personal belongings

NB: Parents are responsible for the insurance of the student's personal belongings against fire or theft. The Institute cannot accept responsibility for any losses. It is the student's responsibility to ensure the safety of his/her belongings.

4.5. Alcohol and Drug Abuse

Elsenburg recognises the right of every student to use alcohol sensibly and within the limits of the law and the rules of the Institute. However, it is a worldwide phenomenon that the youth, among them students, are frequently guilty of the serious misuse of alcohol. From experience we know that this has far-reaching repercussions for many young people. It is advised that parents discuss the necessity of responsible alcohol use and warn against drug dependency. The rules of the Institute will be strictly applied in the case of offenders, as we will not hesitate to remove such undesirable elements from the student community.

4.6. Sexuality

It is expected of every Elsenburg student to maintain high moral standards. You are no doubt aware of the dangers of HIV/Aids and other sexually transmitted diseases. Parents, it would be appreciated if you would inform your sons/daughters of the necessity of responsible behaviour in this respect.

4.7. Vandalism

Elsenburg is proud of the unique study environment offered to students. As funds become available, facilities are continuously being extended to accommodate more students.

However, funds are extremely limited and the cost of building and maintenance of infrastructure extremely high. For this reason no vandalism or destructiveness will be tolerated by any student, as this in turn impacts negatively on study costs which are recouped from students. Students/parents will be held liable for any damage to college property and costs will be added to the student's account.

4.8. Academic Performance/Student Accommodation

Student accommodation is subject to successful academic performance. Students who underachieve will forfeit their accommodation. Students will be informed of such changes in writing. Any changes announced in classes will be signed for. Non-attendance of classes will not be deemed as ignorance of changes.

4.9. Clothing

Students are expected to be neatly and suitably attired at all times. Bare feet are not permitted in classes or during practicals. During certain practical classes, the wearing of overalls and gumboots is compulsory.

4.10. Class Attendance

The extremely poor attendance of students at lectures has necessitated the application of stricter measures against students who are absent without a reasonable excuse. The Institute's Management has the right to prohibit students from writing examinations, should they not have a satisfactory class attendance record.

4.11. Behaviour

Any bad behaviour by students during their term of study at the Institute on or off campus will be seen in a serious light and could lead to disciplinary action and in some cases immediate suspension.

4.12. General

The Elsenburg student community is a diverse group where students of different races, cultures, languages and backgrounds meet. We strive to ensure harmony within this diverse community. Commitment to this aspiration by everyone is therefore of extreme importance.

If every student at Elsenburg is prepared to accept responsibility and is conscious of the potential issues they will encounter during their years of study and in the adult world, it will strengthen our partnership with you considerably.

We thank you sincerely for your assistance in the above matters. Parents, you may rest assured that your child's progress is of the utmost importance to us. You are welcome to contact the Student Affairs Office or the Hostel should you have any further queries.

5. LEISURE

5.1. Student unions

The function of the Student Representative Council (SRC) is to voice students' concerns, interests (academic, financial, residential, sporting, etc.) and to forward suggestions to Elsenburg Management.

Elsenburg students have a love and passion for agriculture which carries over into their studies, sport and cultural activities.

5.2. Sports

Elsenburg Rugby

Elsenburg forms part of the Stellenbosch Residence League, the *Paul Saver Cup*. The *Cup* consists of four leagues and Elsenburg plays in the 1st, 3rd and 4th leagues. Our rugby teams perform extremely well against the competition.

There is an opportunity to participate in the annual PANNAR tournament where eight of the country's top agricultural colleges compete against each other. The PANNAR Rugby Week is characterized by hard, honest play with good team spirit and mutual respect.

Elsenburg has a proud record in this tournament and has won the cup 35 times in the 40 tournaments that have taken place.

As part of the Burgundy Exchange Programme, the rugby team have the privilege of travelling to France every two years.

Elsenburg Soccer

Elsenburg forms part of the Stellenbosch Residence League consisting of a 1st, 2nd and a ladies' league. Elsenburg has a men's and ladies' team in the league.

There are several tournaments in which soccer teams can participate; namely the First Years tournament and the Seniors Tournament. Elsenburg also takes part in the annual NASCO Cup.

Elsenburg Netball and Golf

Elsenburg has a passion for netball and the team participates in the Stellenbosch Residence League, which is made up of three leagues.

There is a variety of tournaments which in the ladies participate. There is a First Years Tournament, Openings Tournament and, later in the year, the Hantie du Toit Cup. The ladies also participate in the annual NASCO sports week.

The golf team also participates in the annual PANNAR tournament. As with the rugby, the country's top agricultural colleges participate in the tournament.

As can be seen from the above, Elsenburg students have passion and pride for their sport. It is also important to remember the main goal of playing sport - enjoyment.

ACADEMIC BRIDGING COURSE (ABC) FOR FIRST YEAR STUDENTS OF 2016

The Academic Bridging Course consists of three subjects namely Biology, Chemistry and Mathematics. Two hour sessions will be scheduled per subject per day which will consist of a 40-minute formal lecture and one hour tutorial session with a test (20 minutes). Students will write an exam for each subject (Biology, Chemistry and Mathematics) on 19, 20 and 21 January. The results of the exams will be used to determine which students will be placed on an extended programme or tutoring programme.

Extended programme (Students who obtain less than 40% in a subject)

The extended programme gives students who do not meet all the specific requirements for a particular programme the opportunity to obtain a qualification by adding one year to the minimum time required for that qualification (eg a 3 year BAgri degree can be extended to 4 years or a 2 year Higher Certificate can be extended to 3 years). The extra time is dedicated to foundation modules that offer additional support to students.

Tutoring programme (Students who obtain 40% - 50% in a subject)

The tutoring programme is scheduled academic support of one to two hours per week for the applicable modules. Any other student can also be part of this programme.

Extracts as contained in the Constitution of South Africa (Act 108 of 1996), which are applicable to all students:

1. In respect of Rights:

Article 7 (1) The Bill of Rights is the cornerstone of democracy in South Africa. It enshrines the rights of all people in our country and affirms the democratic values of human dignity, equality and freedom.

Article 7 (2) The State must respect, protect, promote and fulfil the rights in the Bill of Rights.

Article 7 (3) The rights in the Bill of Rights are subject to the limitations contained or referred to in section 36, or elsewhere in the Bill.

For the guidance of first year students this implies the following:

Democratic values like freedom, equality and human dignity must be respected and promoted by Seniors and House Committee members at all times. This means that first year students must be treated on equal terms and that they have the right to the respect and protection of their innate dignity. The basis of the right to human dignity is that no one may be treated as a mere object under the control of another.

2. In respect of Equality:

Article 9 (1) Everyone is equal before the law and has the right to equal protection and benefit of the law.

Article 9 (2) Equality includes the full and equal enjoyment of all rights and freedoms. To promote the achievement of equality, legislative and other measures designed to protect or advance persons or categories of persons, disadvantaged by unfair discrimination, may be taken.

Article 9 (3) The state may not unfairly discriminate directly or indirectly against anyone on one or more grounds, including race, gender, sex, pregnancy, marital status, ethnic or social origin, colour, sexual orientation, age, disability, religion, conscience, belief, culture, language and birth.

Article 9 (4) No person may unfairly discriminate directly or indirectly against anyone on one or more grounds in terms of subsection (3). National legislation must be enacted to prevent or prohibit unfair discrimination.

Article 9 (5) Discrimination on one or more of the grounds listed in sub-section (3) is unfair unless it is established that the discrimination is fair.

For the guidance of first year students this implies the following:

All students are equal and have the right to equal protection. There will be no unfair discrimination directly or indirectly against anyone for one or more of the following reasons:

- Race
- Gender
- Ethnic / social origin
- Colour
- Sexual orientation
- Age
- Disability
- Religion
- Culture
- Language

People could also be discriminated against for reasons other than those mentioned above. Discrimination in respect of the above is unfair and unacceptable.

3. In respect of human dignity:

Article 10 Everyone has inherent dignity and the right to have their dignity respected and protected.

4. In respect of freedom and security of the person:

Article 12 (1) Everyone has the right to freedom and security of his/her person, which includes the right:

- (a) not to be deprived of freedom arbitrarily or without just cause;
- (b) not to be detained without trial;
- (c) to be free from all forms of violence from either public or private sources;
- (d) not to be tortured in any way; and
- (e) not to be treated or punished in a cruel, inhuman or degrading way.

Article 12 (2) Everyone has the right to bodily and psychological integrity, which includes the right:

- (f) to security and control over their body

For the guidance of first year students this means:

No Senior or House Committee member may expose a student to any form of violence. It is also not permissible to subject a student to verbal abuse. The physical and psychological dignity of the student must be upheld.

5. In respect of slavery, servitude and forced labour:

Article 13 No one may be subjected to slavery, servitude or forced labour.

For the guidance of first year students this means:

Students are not permitted to perform any type of forced labour, such as doing odd jobs for seniors.

6. In respect of privacy:

Article 14 Everyone has the right to privacy, which includes the right not to have:

- (a) their person or home searched;
- (b) their property searched;
- (c) their possessions seized; or
- (d) the privacy of their communications infringed upon.

For the guidance of first year students this means:

No Seniors or House Committee members may search a student or confiscate his/her personal belongings.

7. In respect of language and culture:

Article 30 Everyone has the right to use the language, and to participate in the cultural life of their choice, but no one exercising these rights may do so in a manner inconsistent with any provision of the Bill of Rights.

For the guidance of first year students this means:

No one may be prevented from communicating in his/her own language or from practising his/her religion according to his/her own traditions.

Students who ignore the above-mentioned rules could be liable for expulsion and/or have legal steps taken against them.

The management will take all necessary measures to ensure that the human rights and dignity of the students are maintained. Should you at any time feel that your rights have been violated, please report this to the Student Affairs Office immediately so that the necessary steps can be taken to eradicate such unacceptable behaviour.
